PATENT APPLICATION

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of

Naoto MATONO et al.

Group Art Unit: 2627

Application No.: 10/798,363

Examiner: W. KLIMOWICZ

Filed: March 12, 2004

Docket No.: 118531

For: THIN FILM MAGNETIC HEAD AND MAGNETIC RECORDING APPARATUS

RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In reply to the July 10, 2006 Election of Species Requirement, Applicants provisionally elect Species I, Figures 1-4, with traverse, which corresponds to claims 1-3 and 6-9.

Applicants consider claims 1 and 6-9 to be generic.

It is also respectfully submitted that the subject matter of all species is sufficiently related that a thorough search for the subject matter of any one species would encompass a search for the subject matter of the remaining species. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions" (emphasis added). It is respectfully submitted that this policy should apply in the present application in order to avoid

unnecessary delay and expense to Applicants and duplicative examination by the Patent Office.

Thus, withdrawal of the Election of Species Requirement is respectfully requested.

Respectfully submitted,

James A. Oliff
